To Whom It May Concern:

Re: Mr. Allan Browning

I have personally know and worked with Mr. Browning for over seven years. He has always given the highest level of service and expertise in providing IT services, equipment, advice and direction both professionally and personally.

As my company contracts with many government agencies we are held to a very high standard in all aspects of our operations, from personnel, to security which encompasses not only high level background checks for our personnel, also for our vendors. Knowing Mr. Browning as I do, I have never hesitated in listing Mr. Browning and Vision Quest having access to our IT systems and setting up security of our networking systems.

I recommend Mr. Browning gladly and without hesitation.

Please feel free in contacting me with any questions,

Respectfully,
